Description

Fujifilm Instax Mini LiPlay+ Hybrid Instant Camera The Fujifilm Instax Mini LiPlay+ Hybrid Instant Camera is designed for users who want instant prints with digital flexibility, creative filters, sound memories, and smartphone printing. As both a hybrid instant camera and a smartphone printer, it lets users capture, choose, edit, and print their favourite moments on instax mini film Its main value is storytelling. With dual cameras, Layered Photo Mode, instax Sound Print, Bluetooth remote shooting, and direct smartphone printing, the Instax Mini LiPlay+ turns everyday adventures into printed memories with both visuals and sound. Key Features Hybrid instant camera and smartphone printer Prints on instax mini film Dual cameras: main camera and selfie camera Front-facing selfie camera LCD screen for framing Wide-angle selfie lens Layered Photo Mode Instax Sound Print Records 3-second audio clips QR code audio playback on prints Audio storage for up to 24 months Smartphone direct print Bluetooth remote shooting Creative filters and frames Text and sticker overlay through app microSD card slot USB Type-C charging Available in Sand Beige and Midnight Blue Main Feature Sections Hybrid Camera and Printer The Instax Mini LiPlay+ works as both an instant camera and a smartphone printer. Users can print photos taken with the camera or send smartphone photos to print through the app. Dual Camera Design With a main camera and a front-facing selfie camera, the Mini LiPlay+ makes selfies, group shots, and everyday moments easier to frame and capture. Layered Photo Mode Layered Photo Mode combines two images, such as a selfie and a scenic background, into one instax photo. Users can choose from four layouts to create more expressive prints. Instax Sound Print The camera can record short 3-second audio clips and attach them to prints through a QR code. This lets users relive voices, laughter, and ambient sounds from the moment. Creative Editing Through App Using the instax mini LiPlay app, users can add text, stickers, filters, and frames before printing, making every photo more personal. Bluetooth Remote Shooting Bluetooth remote shooting allows users to control the camera from a smartphone, making it easier to take group photos or step into the frame. Portable Stylish Design With a slim rectangular body, textured finish, glossy lens ring, and premium colour options, the Mini LiPlay+ combines creative function with a stylish look Technical Specifications Product Name: Fujifilm Instax Mini LiPlay+ Hybrid Instant Camera Product Type: Hybrid instant camera and smartphone printer Film Type: instax mini film Camera System: Dual cameras Selfie Camera: Front-facing wide-angle selfie camera Display: LCD screen Print Function: Camera print and smartphone direct print Special Mode: Layered Photo Mode Audio Feature: instax Sound Print Audio Clip Length: 3 seconds Audio Playback: QR code scanning Audio Storage: Up to 24 months App Support: instax mini LiPlay app Connectivity: Bluetooth Remote Shooting: Supported Storage: microSD card slot Charging Port: USB Type-C Colour Options: Sand Beige and Midnight Blue Recommended Use: Instant photography, travel, parties, memories, selfies, smartphone prints, and creative photo sharing
