Description

GoPro Waterproof Housing Case with Filter Lens The GoPro Waterproof Housing Case with Filter Lens is designed for GoPro users who want extra protection for underwater shooting and outdoor action filming. It is suitable for diving, snorkeling, surfing, swimming, travel videos, and water sports where the camera needs stronger waterproof housing. Its strongest selling point is the combination of up to 40m waterproof protection and a 3-pack dive filter kit. With an upgraded waterproof sealing ring, tight buckle design, and included quick release mount accessories, it gives GoPro users a more complete setup for underwater and outdoor recording. Key Features Waterproof housing case for GoPro Hero 9, 10, 11,12 and 13 Supports underwater use up to 40m Includes 3-pack dive filter lenses Upgraded waterproof sealing ring Tight buckle design helps reduce water leakage risk Helps protect the GoPro during outdoor and water activities Suitable for deep-water diving, surfing, snorkeling, and water sports Designed to fit and seal tightly around compatible GoPro models Includes quick release buckle mount Includes screw for accessory mounting Can attach to compatible accessories such as tripods, backpack mounts, and suction cup mounts What's in the Box GoPro Waterproof Housing Case x1 Dive Filter Lens x3 Quick Release Buckle Mount x1 Screw x1
