Description

Introducing Laifen Hair Dryer Swift Premium Collection - the ultimate hair-drying experience with a high-end color palette that exudes class and sophistication. With a powerful brushless motor and negative ion technology, it's designed to dry hair faster than traditional dryers, leaving it shiny and frizz-free. The whisper-quiet sound level ensures a peaceful styling experience. Elevate your hair game and experience luxury like never before with Swift Premium Features 110,000 RPM Motor Speed 1500W Rated Power 2 Speeds: Low Speed / High Speed 3 Temperatures: Cold / Warm / Hot Temperature Cycling Mode Back light LED colour rings 407g Net Weight The Swift range is equipped with an intelligent thermo-sensor, which monitors and adjusts air temperature over 100 times per second. The faster air speed means that temperature can be limited to 80ºC, so hair dries healthier too. It even features an innovative Temperature Cycling Mode, which automatically adjusts temperature to protect your hair and lock in more style. Plus, Swift Ionic Boost technology generates millions of negative ions, eliminating static for the most naturally supple, smooth and shiny hair. With its sleek design, the Swift is an absolute pleasure to use and the distinctive LED colour rings display temperature settings at a glance. The unique nylon/fibreglass construction with a 60% slimmer body ensures that the Laifen Swift is light, ergonomic and built to last. Six layers of noise reduction technology ensures noise and vibration is kept to a minimum. The Premium range Includes two colour matched magnetic nozzles and a stylish clutch travel bag in gun-metal grey. Use the Diffuser Nozzle to define curls and waves and the Smooth Nozzle for quick, smooth straight styling. Regardless of your hair type, from sleek & straight to vibrant & coily, the Laifen Swift will ensure that every day is a great hair day!
