Product specification sheet

Product	DJI Osmo NANO (NANO (128gb))
SKU	cg-45927564312741
Brand	DJI
Category	Camera & Photo
Minimum order quantity	1
Unit	—
Unit price	$415.00
Available quantity	100

Description

Highlights All-New 1/1.3? Sensor 4K/60fps & 143° Wide FOV 4K/120fps & 170° Boost Video 10-bit & D-Log M Color Performance Lightweight, Dual-Sided Magnetic Design 200-Min Extended Battery Life & Fast Charging 10m Waterproof Camera, IPX4-Rated Vision Dock Lightweight and ready for anything, Osmo Nano lets you capture life’s moments effortlessly, wherever your day takes you. From cycling and running to epic adventures and everyday moments, Osmo Nano delivers crisp, vivid footage that brings every memory to life. Its sleek, magnetic design unlocks bold, new, hands-free shooting angles, helping you tell your story like never before. All-New 1/1.3 Sensor4K/60fps143° Wide FOVLightweight, Dual-Sided Magnetic Design Ultra-Lightweight, Effortlessly WearableWith its ultra-compact design, dual-sided magnetic mounting and versatile accessory options, Osmo Nano can be flexibly mounted in various positions, allowing you to discover creative shooting angles beyond imagination empowering you with creative freedom. Next-Gen 1/1.3? SensorEquipped with a 1/1.3-inch sensor and a high-performance image processor, Osmo Nano offers up to 13.5 stops of dynamic range, capturing visuals on par with professional cameras. This powerful imaging performance delivers crisp, detailed shots in both low light and bright sunlight effortlessly. Professional Imaging Without CompromiseSmall and lightweight, yet remarkably powerful, Osmo Nano lets you shoot with ease. Capture every moment in crisp detail with up to 4K/60fps video and 4K/120fps slow motion. 143° Wide-Angle Lens. Capture MoreWhether you’re capturing action sports, travel landscapes or everyday highlights, Osmo Nano’s 143° ultra-wide field of view helps you fit more into every frame, making your memories more complete. 10-bit & D-Log M Color PerformanceEffortlessly capture over a billion colors with stunning detail in both highlights and shadows. Whether shooting in high dynamic range or complex color environments, Osmo Nano preserves rich color and brightness information, giving you greater flexibility for post-production and creative editing. SuperNight ModeIn low light conditions, Osmo Nano’s SuperNight mode enhances image quality with noise reduction algorithms. Two Stabilization Modes for Cinematic ResultsHorizonBalancingHorizonBalancing corrects horizon tilts within a ±30° range and supports video recording up to 4K/60fps. RockSteady 3.0This mode effectively reduces camera shake while preserving the intensity and impact of movement, delivering an immersive first-person perspective. Supports up to 4K/60fps video recording. The magnetic design allows the camera to be mounted in either direction, making it easy to switch between selfies and shooting others. Enjoy real-time viewing and remote control at your fingertips with the built-in OLED HD touchscreen. Fast Charging & Long Operating TimeThe Multifunctional Vision Dock supports fast charging for both the camera and itself. When charging the main camera, it only takes 20 minutes to reach 80% battery level. When attached to the camera and fully charged, the setup can record up to 200 minutes of 1080p/24fps video.
