Product specification sheet

Product	DJI Osmo 360 (Standard)
SKU	cg-45783787045029
Brand	DJI
Category	Camera & Photo
Minimum order quantity	1
Unit	—
Unit price	$450.00
Available quantity	100

Description

HIGHLIGHTS: 1-Inch 360° Imaging Native 8K 360° Video & Exceptional Low-Light Performance 4K/120fps & 170° Boost Video 120MP 360° Photo 100-Min 8K/30fps Continuous Recording 10-bit & D-Log M Color Performance OsmoAudio™ Direct Microphone Connection Next-Level 360° Image Quality1-Inch 360° ImagingSpecially designed for 360° capture, the all-new square HDR image sensor maintains the same 360° image field as a traditional 1-inch sensor [1], while increasing sensor utilization by 25%. This results in outstanding image quality and lower power consumption, all in an ultra-compact, lightweight camera body.Native 8K 360° VideoOsmo 360 is DJI’s first camera [4] to offer native 8K/30fps 360° video with large 2.4µm pixels. With an impressive 13.5 stops of dynamic range, it captures sharp, vibrant footage—even in high-contrast scenes like city nights or during sunrise and sunset. And with support for ultra-high-spec 8K/50fps 360° video, Osmo 360 sets a new standard for 360° cameras. 4K/100fps High-Frame-Rate 360° VideoCapture every split-second in stunning detail with Osmo 360’s high-frame-rate 4K/100fps 360° video. Enjoy ultra-smooth, fluid visuals, and unlock up to 4x slow motion to make those fleeting, awe-inspiring moments last even longer. 10-bit & D-Log MEvery video format on Osmo 360 supports 10-bit color depth, capturing over a billion colors for incredibly rich and lifelike footage. Switch to D-Log M mode to unlock an even wider dynamic range, preserving more detail in both highlights and shadows. This gives you greater flexibility in post-production and opens up endless creative possibilities. Stunning Low-Light PerformanceThe innovative square sensor design enables dual 1-inch 360° image fields [1], while the large f/1.9 aperture dramatically increases light intake. Even in low-light settings, you’ll capture crisp, detailed footage with flagship-level quality. Activate SuperNight mode to reveal every nuance of the night and bring breathtaking nighttime scenes to life. 120MP 360° PhotoFreeze the real world in 360° with a single press. Osmo 360 lets you capture ultra-clear 360° photos at up to 120 megapixels (16K), revealing razor-sharp detail and a sweeping field of view. Step inside every shot and experience true immersion like never before.Invisible Selfie StickPair Osmo 360 with an invisible selfie stick [5] and watch it vanish from your 360° videos—no editing needed. Effortlessly capture incredible third-person views, as if you’ve got your own cameraman following you, always ready to catch every epic moment from the ideal angle. Selfie ModeWith Selfie Mode, you can export wide-angle videos with the invisible selfie stick effect—choose from 4K/60fps, 3K/120fps, or 2K/240fps. Whether you’re after ultra-smooth, high-frame-rate selfies or stunning slow-motion shots, every moment truly stands out.
