Product	Enlaps Tikee 4 Pack Timelapse Camera
SKU	3770009772877
Brand	Enlaps
Category	Camera & Photo
Minimum order quantity	1
Unit	—
Unit price	$3,100.00
Available quantity	100

Description

HIGHLIGHTS: New hardware architecture 6K Jpeg DNG resolution Dual wide-angle sensors 4G/LTE Wifi, GPS Enlaps Tikee 4 Pack Timelapse Camera The Tikee 4, the most advanced timelapse camera ever designed by Enlaps. Ideal for professionals in the construction industry, tourism, events and much more. Thanks to its 6K resolution, its two high-sensitivity Sony sensors, and its 220° panoramic field of view, capture every detail with unrivalled precision. With unlimited energy autonomy thanks to its integrated solar panel and 4G/LTE, Wi-Fi, and GPS connectivity, Tikee 4 lets you keep track of your projects remotely in real time, wherever you are. New hardware architectureExtended load temperature range -10°/+50°, new memory, new LTE module interface. World leader in project trackingMore than 15,000 Tikees deployed worldwide, used by over 10,000 customers. Dual wide-angle sensorsHFOV 220° / VFOV 90° panoramic view, perfect for tracking large sites. High quality, 6K resolution2 high-sensitivity sensors. Jpeg and/or DNG image format 1TB storage capacityUp to 1TB on microSD card. 128,000 images in JPEG format or 30,000 images in DNG format. Weatherproof IP66IP66 certified, the Tikee 4 is designed to withstand extreme weather conditions, ensuring reliable performance from -10°C to +50°C. 4G/LTE, WiFi, GPSAccess your images and data anywhere in the world thanks to 4G/LTE, WiFi and GPS connectivity. Manage your shooting sequences remotely, and automatically send your photos to the secure cloud. Live Stream VideoLaunch a live streaming video session in HD resolution (1280 x 960) with one of the camera's two lenses, and instantly clarify any situation on location. Unlimited battery lifeThe Tikee 4's solar-powered battery ensures continuous monitoring of your projects. Flexible power sourceThe Tikee 4 has a built-in battery and solar panel, as well as a waterproof connector for connecting an additional solar panel or Tikee charger.
