Product specification sheet

Product	Amaran COB 200x S Bi-Color LED Monolight
SKU	APM022XA10
Brand	Aputure
Category	Camera & Photo
Minimum order quantity	1
Unit	—
Unit price	$300.00
Available quantity	0

Description

HIGHLIGHTS: For Video Production & Vlogging Output: 45,400 Lux @ 3.3' with Reflector 2700-6500K CCT AC Power or Optional Battery Station Onboard & App Control CRI 95 | TLCI 98 | SSI 89 Active Cooling Bowens S Accessory Mount 9 Preset Special Effects Includes Reflector, Power Supply & Cable amaran expands its LED monolight line with the S-series COB 200x S Bi-Color LED Monolight, adopting the all-in-one form of the previous COB 200x. With an upgraded LED chipset design, this 200W fixture has enough power to illuminate a room with high-quality light. It provides a variable 2700-6500K color temperature with an ultra-high SSI score across the board for extremely accurate and improved color reproduction. This point-source light has a generous output of 45,400 lux at 3.3' when paired with the included hyper reflector. A variety of nine lighting effects are easily accessible to help you simulate different creative looks. This is the ideal choice for videographers, content creators, and photographers looking for a lightweight and quiet light without sacrificing image quality. Its silent cooling system will not interfere with any scenario, whether creating content at your home studio or on location. You can find the right level of illumination for your scene with 0 to 100% dimming and easily make adjustments locally on the unit with an intuitive LCD screen. Wireless control is also possible from a distance of up to 328' using your smartphone and the Sidus Link app. It lets you conveniently select your lighting settings, activate Lighting FX, or control multiple units at the same time. The 100x S offers extended power options and is ready for worldwide use thanks to its included 100 to 240 VAC power supply. For situations when AC power is unavailable, it can also run on two optional V-mount or Gold mount batteries using the separately available 2-Bay Battery Power Station. Equipped with a full-size Bowens mount, it allows compatibility with a wide array of light shapers. Detailed Color Fidelity System The S-series has improved spectral continuity to achieve the enhanced color quality of an ultra-high SSI (Tungsten) of 90 and (D56) of 89, a 18.6% increase in SSI from its predecessor. Impressive ratings of CRI 95, TLCI 98, CQS 97, and TM-30 Rf 97/Rg 101 are your assurance of a high degree of accuracy in color reproduction at all times. Suitable for home studios or live stream setups, the significantly improved spectral quality of the 200x S will ensure accurate skin tone reproduction for your videos and photos. Powerful Output with Hyper Reflector The 200x S emits up to 6400 lux at a distance of 3.3' at 5600K. When equipped with the included hyper reflector, the light's output climbs to an impressive 45,400 lux. It is a suitable choice for filmmakers and photographers alike by producing both soft and intense lighting for all shooting environments. Preset Effects The light has nine special effects, including paparazzi, fireworks, lightning, faulty bulb, TV, pulse, strobe, explosion, and fire. Lightweight and Versatile The amaran 200x S is a lightweight lamp head with an integrated umbrella mount and full Bowens mount versatility. You can combine it with a large selection of optional modifiers including the Light Dome SE, Light Dome Mini II, and Aputure Lantern. Additional Benefits and Details 0 to 100% stepless dimming Ability to adjust the light in 1% increments Click the control knob for intensity/CCT presets with ease Integrated silent cooling system Includes 9.8' long power cable Weighs only 3.44 lb Easy to manage and stow away when not in use CineGear ME is APUTURE & AMARAN authorized reseller in Lebanon.
