SKU	DJI-FC0304
Brand	DJI
Category	Camera & Photo
Minimum order quantity	1
Unit	—
Unit price	$4,000.00
Available quantity	0

Description

HIGHLIGHTS: Winch system: The kit includes a winch that can lift and lower payloads up to 30 kg (66 lbs). This allows the drone to deliver supplies to hard-to-reach areas, such as rooftops or cliffs. The winch also has a safety brake and an automatic cut-off feature to prevent accidents. Counterweight: The kit also includes a counterweight that helps to balance the drone when it is lifting a payload. This ensures that the drone remains stable and in control during flight. The DJI FlyCart 30 Winch System Kit includes a winch, a counterweight, a transport landing gear, and an extension cable. The kit can quickly be installed on DJI FlyCart 30 and facilitates complex delivery operations with ease.
