## Description

HIGHLIGHTS: Compact And Portable 4x Multispectral Cameras (G,R,RE,NIR)  20MP RGB Camera 43 minutes flight time Omnidirectional Obstacle Avoidance 15km Transmission Distance Centimetre-level RTK positioning. DJI Mavic 3 Enterprise Multispectral (Universal Edition). Effective aerial surveying needs to see the invisible. That's why Mavic 3 Multispectral has two forms of sight. It combines an RGB camera with a multispectral camera to scan and analyze crop growth with total clarity. Agricultural production management requires precision and data, and Mavic 3M delivers both. Mavic 3M with RTK module for centimeter-level positioning. Flight control, the camera, and the RTK module sync in microseconds to accurately capture the location of each camera's imaging center. This enables Mavic 3M to do high-precision aerial surveying without using ground control points.
