Product specification sheet

Product	Sony FE 600mm f/4 GM OSS Lens
SKU	SEL600F40GM
Brand	Sony
Category	Camera & Photo
Minimum order quantity	1
Unit	—
Unit price	$16,500.00
Available quantity	100

Description

HIGHLIGHTS: E-Mount Lens/Full-Frame Format Aperture Range: f/4 to f/22 ED, Fluorite, and Aspherical Elements Nano AR and Fluorine Coatings Sony FE 600mm f/4 GM OSS Lens. The f/4 aperture and eleven-blade circular diaphragm provide great depth of field control for isolating subjects, as well as maximizing performance for low-light shooting situations. Three fluorite elements and one XA (extreme aspherical) element reduce chromatic aberration and color bleeding, while two ED (extra-low dispersion) elements and a Nano AR lens coating further increase performance and image quality by reducing flare, ghosting, and spherical aberations while shooting in harsh conditions. The front element is further protected by a fluorine coating that helps prevent dirt and fingerprints from sticking, while making it easier to wipe clean if they do become attached to the lens surface.
