Product specification sheet

Product	DJI Ronin 2 Professional + Ready-Rig Combo
SKU	DJI-R200-C2
Brand	DJI
Category	Camera & Photo
Minimum order quantity	1
Unit	—
Unit price	$11,000.00
Available quantity	100

Description

HIGHLIGHTS: *shown with optional equipment For DSLRs / Cinema Cameras 30 Pound Payload Capacity Enhanced SmoothTrack Algorithm and GPS Upright, Underslung, and Briefcase Modes Easy Underslung/Upright Transitions 2-Axis Mode for Use with Steadicam Retractable Feet/Self-Supporting Design Camera Control For Select Cameras 2.4 / 5.8 GHz Switchable Remote Up to 0.6 Mile Control Range Ready Rig GS Stabilizer + ProArm Kit Load Capacity Range of 1-40 lb Vertical Axis Stabilization Telescoping Carbon Fiber Support Arms 55" Boom Range Compatible with Any Gimbal Operate Gimbal Over- or Underslung Aluminum & Carbon Fiber Construction Slim, Compact Design Ronin 2 exists to let filmmakers capture the scene they see in their mind. Upgraded high torque motors allow it to support a wider range of cameras, resist high winds and G-forces caused when mounted to a car and keep it moving smoothly in flight. HIGHER TORQUE, MORE POWER, SAME PRECISIONWith up to eight times more powerful motors than previous iterations, Ronin 2 can withstand sustained speeds of over 75mph with camera builds as heavy as 30lbs. We’ve increased power without sacrificing control. With encoded motors and extreme precision, the same 0.02° of accuracy remains. ACCESSORY SUPPORTWith the new Ronin power hub, essential accessories such as DJI Focus and wireless video transmission systems could gain power and communicate data with Ronin 2. EASYThe simplicity of Ronin has been amplified with Ronin 2, making setup and use easier than ever. Everything, from mounting cameras to balancing and tuning, powering accessories and transportation has been tweaked and refined for ease and speed. INTELLIGENTEnhanced intelligence means filmmakers can get shots with Ronin 2 that would once have needed specialist expertise or additional equipment, from total smoothness control to studio-oriented smart features. Ronin 2 Gimbal 1xCarrying Case 1xRonin 2 Power Hub 1xCamera Mounting Plate 1xCamera Upper Mounting Plate 1xRemote Controller 1xBattery Compartment 1xIntelligent Battery (TB50) 2xBattery Charger 1xPower Cable 1xCharging Hub 1xGrip 1xAccessories Package (Screws & Hex Keys) 1xCables Package (Red Power Cable, Arri Power Cable, 2-pin Power Cable, DC Power Cable, 6-pin-to-P-tap Adapter, USB Type-C Data Cable, Control Cable for Red, Control Cable for Arri, Ronin 2 Power Cable, S-Bus Receiver Cable, 1 each.) 1xManual Package 1xMonitor Mounting Bracket 1x15mm Rod Mount 1x15mm Extension Rod 2xRonin 2 Universal Mount 1x Ready Rig GS Stabilizer + ProArm KitReady Rig GS Stabilizer + ProArm Kit - Transfer the weight of a gimbal-mounted camera away from an operator's arms and shoulders. By redistributing the load to the user's hips and core, this rig enables you to extend your shooting time and lessens operator fatigue. It also reduces the bounce motion sometimes seen during handheld gimbal shots. The Ready Rig GS Stabilizer works with any gimbal in standard or underslung mode. The Ready Rig ProArms increase the basic GS Stabilizer's load range from 30 to 40 pounds. They telescope from 23 to 37", producing an effective boom range of 55". For greater operating convenience, the ProArms also feature 1/4"-20 and 3/8-16" threads, enabling you to mount an onboard monitor to either arm. The Ready Rig GS with ProArms features a load capacity range of 1 to 40 pounds, carbon fiber support arms, and an aluminum frame. Its slim, compact profile suits it for use in tight spaces and car interior shots. CineGear ME is DJI's ONLY authorized reseller in Lebanon.
