Product specification sheet

Product	DJI Lidar Range Finder (RS)
SKU	DJI-RS362
Brand	DJI
Category	Camera & Photo
Minimum order quantity	1
Unit	—
Unit price	$550.00
Available quantity	100

Description

HIGHLIGHTS: The LiDAR focusing system makes focusing easier for hand-held shooting, without relying on the surface texture of the subject. This is especially useful in low-light environments and results in exceptional focusing capabilities. The new LiDAR Range Finder (RS) can project 43,200 ranging points, detect within a 14-meter range, [1] and has a built-in camera with an equivalent focal length of 30 mm and a wide FOV of 70°, which can handle the focusing needs of most scenarios. Pairing with the new Focus Motor (2022) also makes autofocus on manual lenses possible after calibration. With the LiDAR Range Finder (RS), RS 3 Pro supports ActiveTrack Pro, delivering better subject identification and tracking performance. 1. Tested in an environment without strong light. In normal shooting environments, the detection distance of human subjects is 7 meters. CineGear ME is DJI's ONLY authorized reseller in Lebanon.
