Product specification sheet

Product	DJI Phantom 4 Series - Intelligent Flight Battery (5870mAh, High Capacity)
SKU	DJI-P464
Brand	DJI
Category	Camera & Photo
Minimum order quantity	1
Unit	—
Unit price	$250.00
Available quantity	0

Description

HIGHLIGHTS: Professional aerial imaging benefits from longer flight times. The Phantom 4 Pro has a maximum flight time of 30 minutes, providing more time in the air to capture the perfect shot. The DJI GO app shows battery lifetime and calculates remaining flight times according to distance traveled and more. It will give alerts when it reaches a minimum safe amount required for a safe journey back to the takeoff point. An advanced battery management system is also in place to prevent overcharging and over draining. When placed in longer term storage, batteries will discharge power to maintain good health.
