Description

HIGHLIGHTS 1. Ergonomic design, and supports to be used by left & right hand interchangeably for improved grip experience. 2. The strong and durable handle is made of high-strength aluminum alloy and features silicon pads on the contact surface with the palm, which is anti-freeze and anti-slip. 3. Allows 36mm vertical adjustment to get the best grip position according to the camera size. 4. Features built-in mounting points to meet multiple shooting scenes, such as 1/4"-20 threaded hole, 1/4"-20 locating hole, strap hole, and cold shoe. 5. Built-in magnetic Allen Wrench for easy assembly and disassembly.
