Description

Tri-Mode Gaming Headset with ≤20ms Ultra-Low Latency] Built-in Lightseed wireless tech delivers lag-free gaming audio via 2.4GHz USB-C dual dongle. Double-press the M button to search for “L90” for Bluetooth pairing, with 3.5mm wired cable as backup. Reliable 3-way connectivity for console gaming, media streaming and daily entertainment [Virtual 7.1 Surround Hi-Fi Audio with 40mm Drivers] Large 40mm speaker drivers produce crisp treble, balanced mid-range and deep bass. Virtual 7.1 surround generates accurate positional sound for competitive gameplay. A thoughtful gift choice for birthdays and Christmas for gamers, teens and family members [Ultra Comfort Over-Ear Design for Long Sessions] Soft breathable skin-friendly foam earpads and adjustable headband avoid stuffiness during long-hour wearing. Ergonomic over-ear frame reduces ear pressure, perfect for marathon gaming sessions, video conferences and long-time media listening [215g Ultra Light Foldable RGB Headphone with Detachable Mic] Weighs only 215g with foldable structure, easy to store in backpacks for travel, commuting and business trips. Removable microphone guarantees clear in-game team chat, RGB lighting enhances your desktop gaming atmosphere [Multi-Device Compatible Headphones with Customizable Sound Effects] Compatible with PS4, PS5, Xbox Series X/S, Switch, PC, Mac, tablets and 3.5mm-jack smartphones. Create custom sound profiles via driver software under 2.4G mode. The 2-in-1 transmitter needs assembly for PS/PC; Xbox Series only supports 3.5mm wired mode Note 1: The 2-in-1 USB transmitter must be assembled for PS4 / PS5 / PC / Mac connection and cannot be used separately Note 2: Xbox Series consoles only support 3.5mm wired connection mode Note 3: When switching to a new device after using over 5 minutes: hold the up-arrow button for 3 seconds to activate forced pairing mode; the blue LED indicator will flash every 0.5 seconds
