Available quantity	100

Description

Pixart PAW3395 Flagship Sensor□ATTACK SHARK X6 wireless gaming mouse adopts a pixart 3395 flagship optical sensor,provide 6 level adjustable DPI(800/1600/2400/3200/5000/26000), 650 IPS tracking speed, 1000Hz response speed,50G acceleration limit, committed to capturing the slightest movement, the fastest response and the precisest positioning, tailored for gaming enthusiasts. □49g Ultralight & Ergonomic Design□Equipped with advanced lightweight material case, X6’s weight come to an astonishing 49g, which is even lighter than an egg, making it almost the lightest mouse on market. What’s more, the ergonomic body design takes good care of various grip hand shapes and easily supports the palm of the hand. All of these design can minimize the burden of hands when using the mouse and reduce palm sweating and wrist fatigue during long-term use. □RGB Backlight Charging Base&Touch Switch□The ATTACK SHARK X6 mouse can be quickly recharged with the cool RGB backlight charging dock, which features an RGB backlight effect that can be customized with tactile controls. With up to 200 hours of use on a single charge, you can enjoy an uninterrupted gaming experience without worrying about your mouse's battery life or the hassle of finding a charging cable. □HUANO Powder Point Micro Switch& TTC Encoder□By using the high-end HUANO Powder Point Micro Switch, every click of X6 is featured with crispy sound, fast rebound and quick trigger, and it’s 80 million times click lifespan can ensure a durable and stable performance. It is also equipped with a TTC scroll wheel encoder which can provide a more precise positioning. All of this ensures you get excellent tactility in every touch of the mouse. □Three Modes Connection□X6 supports three connection modes(USB-C wired mode, 2.4G wireless mode and BT 5.2 mode) to meet various using scenes. When you are at gaming, switch to the 2.4G mode and Bluetooth mode to get rid of annoying cables. When you are at working and need a stable data transmission, you can also switch to the traditional wired mode with the attached charging USB-C data cable. A maximum of 4 devices can be connected at same time, making it very suitable for multi -device work. □5Programmable Buttons□Total 5 programmable buttons, setting the mouse DPI, polling rate, LOD, short cut and Macro via driver.Our team is committed to bringing players to next level by providing them the optimal gaming accessories. Cause we believe that even a small delay may affect the entire game, and a proper gaming gear have magic to turn defeat into victory in every game.
