Description

Real-Time Adaptive Noise Cancelling Hi-Res Certified Sound with LDAC Instant AI Translation Crisp, Clear Calls Listen for Longer. Soundcore R60i NC: Intelligent Audio Mastery for Global Citizens in Lebanon Break through language barriers and immerse yourself in pristine sound with the Soundcore R60i NC, a revolutionary pair of earbuds designed for the cosmopolitan and demanding user in Lebanon. These earbuds feature Real-Time Adaptive Noise Cancelling that reduces ambient noise by up to 52 dB, intelligently adjusting to your environment for optimal focus. Experience studio-quality audio with Hi-Res Certified Sound powered by LDAC technology, delivering lossless, detailed music. The groundbreaking Instant AI Translation feature provides two-way translation for 100 languages in real-time, transforming how you communicate and comprehend globally. With crisp, clear calls using a six-microphone AI array and an exceptional 50-hour total battery life, the Soundcore R60i NC is your ultimate companion for travel, work, and entertainment across Lebanon and beyond. Intelligent 52dB Adaptive Noise Cancellation The Soundcore R60i NC redefines personal audio space with its Real-Time Adaptive Noise Cancelling. Using advanced sensors, it continuously detects your surroundings—whether you’re in a noisy Beirut café, on a flight, or in a quiet library—and automatically chooses the best noise-cancelling level. With a reduction of up to 52 dB, it effectively silences the world, allowing you to concentrate on your music, podcasts, or simply enjoy moments of peace. Hi-Res Audio with LDAC for Studio-Quality Sound For audiophiles, these earbuds deliver an exceptional listening experience. Certified for Hi-Res Audio and featuring LDAC codec support, they transmit three times more data than standard Bluetooth, preserving the fine details of your music. The result is rich, well-balanced treble and bass with stunning clarity, allowing you to hear your favorite tracks exactly as the artists intended. Revolutionary Instant AI Translation in 100 Languages A true game-changer for travelers and professionals, the Instant AI Translation feature acts as a personal interpreter. It facilitates accurate two-way translation in real-time for 100 languages, allowing you to have natural conversations, understand foreign speeches, or follow international meetings with ease. This makes the earbuds an indispensable tool for navigating Lebanon’s multicultural environment and global interactions. Crystal-Clear Calls & Marathon Battery Life Never miss a word in important conversations. The earbuds employ six microphones and advanced AI algorithms to filter out external noise and wind, ensuring your voice is transmitted with crystal-clear quality for calls that sound like they’re face-to-face. For power, enjoy up to 10 hours of playtime on a single charge (8 hours with ANC on), extending to a massive 50 hours total with the charging case (40 hours with ANC). A quick 10-minute charge delivers up to 3 hours of playtime. Why the Soundcore R60i NC is Essential for Lebanon For Frequent Travelers & Business Professionals: AI translation breaks down language barriers; noise cancellation creates a mobile office anywhere. For Audiophiles & Commuters: Hi-Res LDAC audio provides an escape during daily travel with immersive sound quality. For Students & Remote Workers: Adaptive ANC enables deep focus in any environment, while long battery life supports all-day use. For Tech Enthusiasts: Combines cutting-edge audio tech, AI, and impressive battery in one sleek package. Key Specifications & Features: Noise Cancellation: Real-Time Adaptive ANC (Up to 52dB reduction) Audio Quality: Hi-Res Audio Certified, LDAC Codec Support AI Feature: Instant Two-Way Translation for 100 Languages Call Quality: 6-Mic AI ENC (Environmental Noise Cancellation) Battery: Up to 10hrs (Earbuds), 50hrs Total (Case); 10-min charge = 3hrs play Connectivity: Bluetooth 5.3, Multipoint Connection App Support: Customizable via Soundcore App Hear more, understand more, do more.
