SKU	gs-48603536261342
Brand	Gamesir
Category	Video Games
Minimum order quantity	1
Unit	—
Unit price	\$75.00
Available quantity	0

Description

GameSir × Nioh 3 Official CollaborationIn collaboration with Nioh 3, the epic action RPG, this controller is inspired by the iconic Living Weapon state. The deep black armor on the grips embodies the awakened battle form, while radiant gold accents visualize a surge of spiritual energy. More than just a controller, it's your trusted companion on the journey to conquer the Crucible. 8K Hz Wired and 2.4G Wireless PollingWith an 8000Hz polling rate over both wired and 2.4G wireless connections, the G7 Pro 8K PC delivers smoother control and instant response, ensuring every input is registered with esports-grade precision. GameSir Mag-Res™ TMR Sticks Gen-2Designed for pro-level performance, the Gen-2 TMR sticks still use magnetic technology to eliminate physical contact, delivering long-lasting anti-stick drift reliability. At the same time, they offer smoother, more linear control and ultra-low power consumption, providing precise and responsive gameplay for competitive gamers. Dual-Mode Trigger StopsThe G7 Pro 8K PC features dual-mode trigger stops, letting you switch effortlessly between Hall Effect analog triggers and micro switch triggers. Precision-tuned Hall Effect analog triggers deliver smooth, linear input for accurate control, while clicky micro switch triggers provide instant response. Whether you need precise linear control or ultimate responsiveness, it gives you the competitive edge. Four Remappable Macro ButtonsIncluding two lockable back buttons and two mini bumpers, each supporting up to 32-step macro recording, giving gamers advanced customization and faster in-game execution. Ultra-Fast Actuation ButtonsExperience esports-grade responsiveness with optical micro switch ABXY buttons, offering instant actuation and long-lasting durability. The mechanical micro switch D-pad delivers precise and reliable directional input. Motion ControlBuilt-in 6-axis gyroscope enhances aiming accuracy and fine control, offering greater flexibility for competitive and immersive gameplay. Dual Asymmetric Rumble MotorsFeaturing dual asymmetric motors in the grips, the G7 Pro 8K PC delivers immersive and realistic vibration feedback, letting you feel every crash, hit, and explosion as if it were happening in your hands. Equipped with an instant start-stop circuit, the motors stop and start faster, producing clearer and more precise vibrations for a heightened gaming experience. 3.5mm Audio SupportThe G7 Pro 8K PC supports 3.5mm audio output via both wired & 2.4G wireless connections, delivering a more convenient and immersive gaming experience. Esports-grade customization via GameSir Connect softwareFully customize performance, button mapping, macros, and more through GameSir Connect software, designed for competitive-level control and personalization.
