Product	GameSir G7 Pro 8K Wireless Esports Controller for PC - Champion Edition
SKU	gs-48603531215070
Brand	Gamesir
Category	Video Games
Minimum order quantity	1
Unit	—
Unit price	\$75.00
Available quantity	0

Description

Features & details 8000Hz POLLING RATE FOR ULTRA-LOW LATENCY - Experience near-instant response with up to 8000Hz polling rate on PC through both wired and 2.4GHz wireless connections. Enjoy ultra-smooth control, faster input registration, and competitive-level responsiveness. NEXT-GEN MAG-RES TMR STICKS - Combining the precision of traditional analog sticks with the anti-drift durability of Hall Effect technology, Gen-2 TMR sticks deliver smoother control, greater accuracy, and long-lasting reliability for competitive gaming. DUAL-MODE TRIGGER STOPS - Switch between Hall Effect analog triggers for precise, linear control and clicky micro switch trigger stops for instant response. Easily adapt to FPS, racing, and action games with a physical trigger toggle. 4 PROGRAMMABLE MACRO BUTTONS - Featuring two lockable back buttons and two mini bumpers, each supporting up to 32-step macro recording. Execute advanced commands, combos, and repetitive actions with a single press. OPTICAL ABXY BUTTONS & MECHANICAL D-PAD - Optical micro switch ABXY buttons provide fast, crisp actuation, while the mechanical micro switch D-pad delivers precise directional control and consistent tactile feedback. CHARGING DOCK WITH BUILT-IN BATTERY - Includes a convenient charging dock and rechargeable battery for extended gaming sessions. Simply place the controller on the dock to charge and keep your setup organized. 6-AXIS GYRO CONTROLS FOR PC - Enhance aiming precision and motion control with a built-in 6-axis gyroscope. Map gyro input to sticks, buttons, or mouse controls for a more responsive gaming experience. DUAL ASYMMETRIC RUMBLE MOTORS - Feel every impact, explosion, collision, and recoil with immersive vibration feedback designed to bring games to life. 3.5MM AUDIO JACK FOR HEADSET SUPPORT - Connect your favorite wired headset for clear in-game audio and voice chat. Supports audio through both wired and 2.4GHz wireless controller connections. FULL CUSTOMIZATION WITH GAMESIR CONNECT SOFTWARE - Customize button mapping, macro functions, stick settings, trigger configuration, and more through GameSir Connect software to create your ideal gaming setup.
