Description

2D Headrest Rotates 45°126° Tilt With Retractable FootrestHigh-Resilience Nylon Breathable Mesh CHR31 built with high-resilience nylon mesh that breathes, this chair keeps you cool even during marathon sessions. The 2D headrest rotates 45° and adjusts in height, while a large lumbar pillow with 126° tilt supports your waist so your back stays fatigue-free. 3D armrests adapt to your posture, and an retractable footrest gives your legs a break. All supported by strong metal legs and silent wheels — durable, stable, and quieter in movement. Perfect for professionals and gamers who spend long hours at the desk and demand both comfort and endurance. Durable Alloy Material Base Adjustable 3D Armrest 2D Flexible Headrest Ultra breathable Mesh Design Elastic Mesh Breathable Seat Stay cool even in the heat of battle. The elastic mesh design promotes airflow and keeps you comfortable through long gaming or work sessions — no more sticky seats or overheating. Adjustable Backrest Lean back your way. Easily recline to your preferred angle upto 126° for gaming, working, or power naps — ultimate flexibility that adapts to your comfort. Headrest & Lumbar Support Game smarter, not harder. The adjustable headrest and ergonomic lumbar support your spine’s natural curve, helping you maintain perfect posture and reduce fatigue during extended play. Upgraded Quality Wheel Glide with ease. The silent, smooth-rolling wheels are built to protect your floor and move effortlessly across surfaces, keeping your setup sleek and scratch-free. SGS Certified Air Rod Safety meets stability. The SGS-certified gas lift ensures smooth, secure height adjustments and reliable performance — tested to handle daily use with confidence. Retractable Footrest Kick back and relax. The extendable footrest turns your gaming chair into a recliner, letting you stretch out and recharge between rounds or after a long day.
