Description

Flagship, fully upgraded for next-level performance. Compatible with Switch, Switch 2, and Windows. Switch 2 compatibility requires the controller and adapter to be updated to the latest firmware. TMR Joysticks – Offering higher sensitivity, greater precision, and enhanced durability, complete with an RGB Fire Ring and wear-resistant joystick rings. Integrated Charging Dock - A seamlessly integrated charging dock keeps your controller always charged and ready to play. Automatically reconnects when removed from the dock. Vibration and Motion control (for Switch only). Turbo function. Wake-on-shake. Support 8BitDo Ultimate Software V2. Trigger Mode Switch - Easily switch between linear Hall Effect triggers and non-linear tactile triggers for optimal control across different gaming scenarios. 2 Pro-level back buttons. Extra R4/L4 bumpers. Tactile bumpers and D-pad. 3 custom profiles.
