Product specification sheet

Product	DJI Mic mini 2
SKU	gs-48353987363038
Brand	DJI
Category	Audio & Video
Minimum order quantity	1
Unit	—
Unit price	$100.00
Available quantity	100

Description

DJI Mic Mini 2 Most creators think microphone quality is mainly about:□ “how expensive the mic is.” Wrong. The biggest upgrade in content quality usually comes from:□ cleaner, more consistent voice capture. And this category wins by reducing: setup friction clipping connection instability workflow complexity DJI understands that better than most audio brands targeting creators. Key Features Dual wireless microphone system 2 transmitters + 1 receiver Ultra-light 11g transmitters Two-level noise cancelling Automatic audio limiting 3 voice tone presets OsmoAudio direct connection Up to 48-hour total operating time Plug-and-play mobile compatibility Safety track recording support Audio Performance Recording Style Omnidirectional wireless recording Voice Presets Regular Rich Bright Real Benefit Different voice profiles help optimize: streaming interviews teaching vlogging conversational content Noise Reduction Noise Cancelling Levels Basic Strong Best Usage Basic Mode indoor environments quieter recording spaces Strong Mode outdoor environments busy public areas noisy backgrounds Automatic Limiting Main Function Prevents audio clipping Real Advantage Automatically lowers excessive input levels before distortion occurs. This is extremely valuable for: beginners unpredictable environments live reactions outdoor creators Because clipped audio is often unrecoverable. Wireless System Included Setup 2 transmitters 1 receiver Best For interviews two-person content podcasts collaborative videos Battery Performance Runtime Transmitter Up to 11.5 hours Receiver Up to 10.5 hours Charging Case Up to 48 hours total usage Power Management Intelligent power-saving modes Compatibility Supported Devices cameras smartphones tablets PCs Included Adapters USB-C mobile adapter 3.5mm TRS camera cable DJI Ecosystem Advantage OsmoAudio Direct Connection Direct connection to compatible DJI devices without receiver Real Benefit Cleaner workflow Less equipment Faster setup This is one of the strongest hidden advantages. Gain & Backup Features Gain Adjustment 5-level gain control Safety Track Backup recording track support Why This Matters Professionals care deeply about:□ redundancy. Bad audio destroys otherwise usable footage. Design Transmitter Weight 11g ultra-light design Storage Compact organized charging case Portability Designed for mobile creators and travel workflows
