Available quantity	100

Description

Portable and Wireless: Mini Bluetooth thermal label printer for seamless mobile connectivity; compatible with iOS, Android, and Windows devices. Versatile Label Printing: Supports a wide range of labels, including price tags, jewelry labels, clothing labels, address labels, cable tags, and more, with a max label width of 57mm. DLabel App Integration: Preloaded with 500 label templates in the app; allows custom design and Excel batch printing for enhanced productivity. Ink-less Technology: Thermal printing with no need for ink or ribbons; reduces costs and maintenance with black-and-white output. OCR Text Recognition: Converts text from images into editable text in seconds, perfect for streamlining label creation and document management. Long-lasting Battery: Built-in 1500mAh rechargeable battery offers 24 hours of continuous operation or 7 days of standby on a single charge. Fast Printing Speed: Achieve a printing speed of 60–150mm/s, suitable for fast-paced business environments. Durable Build: Compact and durable, with a visible window for easy monitoring of the remaining paper roll.
