Available quantity	100

Description

The Razer BlackWidow V3 Tenkeyless is a compact and high-performance wired mechanical gaming keyboard designed for precision and comfort. Featuring the renowned Razer™ Yellow/Green Mechanical Switches, this keyboard provides a smooth and silent typing experience, making it perfect for both gaming and intensive typing tasks. Its tenkeyless design offers a minimalist footprint, allowing for more flexible positioning and a cleaner desktop setup. Equipped with Razer Chroma™ RGB lighting, the BlackWidow V3 Tenkeyless supports 16.8 million colors and integrates seamlessly with popular games and Razer hardware. The keyboard's durability is ensured by its military-grade metal top plate, which withstands up to 80 million keystrokes. Additional features include fully programmable keys and Razer Hypershift technology for complex command execution, enhancing your gaming experience with unmatched customization and control. Key Features: Razer™ Yellow Mechanical Switches: Offers a smooth, silent keystroke with a low actuation force, ideal for both gaming and typing with minimal noise. Razer™ Green Mechanical Switches: Tactile and clicky Razer Chroma™ RGB Lighting: Customizable backlighting with 16.8 million color options, syncing with games and other Razer devices for a personalized setup. Compact Tenkeyless Design: Reduces desktop footprint by removing the number pad, making it easier to position the keyboard for optimal gaming ergonomics. Fully Programmable Macros: Razer Hypershift allows all keys and key combinations to be remapped, supporting complex command sequences. Durable Metal Construction: Military-grade top plate ensures longevity and resilience, withstanding up to 80 million keystrokes. Specifications: Switch Type: Razer™ Yellow/Green Mechanical Switch Key Feel: Linear and Silent Approximate Size: Tenkeyless (TKL) Lighting: Razer Chroma™ RGB customizable backlighting with 16.8 million color options Wrist Rest: None Onboard Memory: None Media Keys: None Passthrough: None Connectivity: Wired - Attached Keycaps: Doubleshot ABS Others: Fully programmable keys, Razer Hypershift for advanced macro functionality, N-key roll-over, 1000 Hz Ultrapolling, Military-grade metal top plate, Supports up to 80 million keystrokes The Razer BlackWidow V3 Tenkeyless offers a compact yet powerful gaming experience with its precise switches, customizable lighting, and durable build. Its minimalist design and advanced features cater to gamers who value performance and style in a smaller form factor.
