Description

Detachable Remote Controller: The hohem iSteady X3 SE Gimbal comes with a detachable magnetic remote, allowing you to effortlessly control selfies and videos from up to 32.81 feet away. This phone stabilizer is perfect for capturing family gatherings and solo travel moments with ease Advanced iSteady 8.0 Technology: Featuring upgraded 3-axis stabilization, this phone gimbal ensures ultra-smooth footage, even when jogging or jumping. Perfect for action-packed outdoor adventures and dynamic vlogging sessions Portable and Foldable Design: Take your gimbal anywhere! Weighing only 0.79 lbs, the iSteady X3 SE stabilizer easily folds into a pocket-sized tool, making it a must-have for travelers and vloggers on the go Unlock your Creativity with the Hohem Joy App: The gimbal stabilizer for iphone integrates seamlessly with the Hohem Joy APP, offering multiple shooting modes like AI tracking, gesture control, and creative templates. Ideal for vloggers and content creators looking to elevate their production quality 11-Hour Long Battery Life: Film all day without interruptions. The iSteady X3 SE smartphone gimbal offers 11 hours of continuous operation on a 2-hour charge, making it perfect for live streaming and day-long shoots. Capture entire events or long adventures without worrying about running out of power Beginner-Friendly Stabilizer: Easy to use and budget-friendly, the iSteady X3 SE gimbal is designed for anyone looking to create professional-grade content without a steep learning curve, ideal for first-time gimbal users High Payload Capacity: With a payload capacity of 0.66 lbs, this gimbal stabilizer can securely hold a wide range of smartphones, including those with larger screens. Ideal for use with the latest iPhones and other large-screen devices Quick Horizontal and Vertical Screen Switching: Effortlessly switch between landscape and portrait modes. The iSteady X3 SE stabilizer is designed for easy use, even for beginners, making it perfect for creating social media content
