Unit price	$25.00
Available quantity	100

Description

The Havit MS969WB Wireless Gaming Mouse is a combination of high performance, customization, and style, designed for gamers seeking precision and comfort. Equipped with advanced features such as programmable macros, customizable lighting, and impressive key lifespan, this mouse is an essential tool for every gaming enthusiast. Its white color adds elegance, and the ability to change DPI resolution allows for customization to individual needs. Here are five key features that set the Havit MS969WB mouse apart. Customizable LED Lighting The Havit MS969WB mouse offers 10 types of LED lighting, allowing users to customize its appearance to their style and gaming setup. Each set DPI resolution is indicated by a different light color, making it easy to identify and adjust for gaming needs. The lighting can be easily changed with a single click, adding functionality and aesthetics. High Resolution and Precision With a resolution ranging from 1000 to 16000 DPI, the Havit MS969WB mouse ensures exceptional precision and smooth movement. The ability to change DPI on the fly allows gamers to quickly adapt to different gaming scenarios, from precise aiming to fast maneuvers. Macro Programming Thanks to the manufacturer's software, users can program macros, which is invaluable in games requiring quick and complex key combinations. This feature maximizes performance and customizes the mouse to an individual gaming style. Long-lasting Durability and Comfort The mouse provides a lifespan of up to 3 million clicks, ensuring long-lasting and reliable operation. Its ergonomic shape and wireless design provide comfort even during long gaming sessions, reducing hand fatigue. Easy Operation Managing mouse settings is intuitive thanks to the manufacturer's software, which allows customization of lighting, DPI, macros, and key functions. Additionally, a light battery indicator informs about the battery status, ensuring uninterrupted gameplay.
