Description

Gaming mouse Havit MS1033 (white) The Havit MS1033 gaming mouse will make every game an unforgettable experience. With 6 levels of DPI adjustment, 9 programmable buttons and a button life of 3 million clicks, it will meet the expectations of even the most demanding gamers. The colorful RGB backlighting with 6 lighting effects will provide unique visual effects during gaming. It also has special weights that allow you to adjust its weight to your preferences. Precision at the highest level Havit The MS1033 offers 6-stage DPI adjustment, allowing you to customize the precision of your movements. A dedicated button will allow you to conveniently switch between different levels of resolution - from 800 DPI, ideal for precision tasks, all the way up to an impressive 8,000 DPI for lightning-fast response and accuracy in the most demanding games. Achieve a higher level of precision and dominate the battlefield! Programmable buttons The Havit mouse is a reliable ally of every gamer! With 9 programmable buttons, creating complex action sequences in games has become easier than ever before. What's more, the life span of the buttons reaches up to 3 million clicks, so you can be sure that it won't let you down in the most important moments of gameplay. Colorful RGB backlighting Increase your level of immersion while playing! The mouse is equipped with colorful RGB backlighting, which gives it a modern gaming feel. It offers up to 6 dynamic light effects, which you can freely change at any time with a dedicated button. Discover how light can change your game! Dream comfort The ergonomic design of the mouse is designed to provide you not only comfort during long gaming sessions, but also precision in every movement. The mouse adapts perfectly to your hand, guaranteeing a natural wrist position and minimizing fatigue. However, that's not all! Havit MS1033 offers the possibility to adjust the weight of the mouse with special weights. Do you need a lightweight mouse for dynamic action games, or a more balanced one for precision shooting? The choice is yours!
