Product	Starfield - PlayStation 5 | PS5
SKU	gs-48117032059102
Brand	Microsoft
Category	Video Games
Minimum order quantity	1
Unit	—
Unit price	$52.00
Available quantity	100

Description

Starfield is the first new universe in over 25 years from Bethesda Game Studios, the award-winning creators of The Elder Scrolls V: Skyrim and Fallout 4. In the next-generation role-playing game set amongst the stars, create any character you want and explore with unparalleled freedom as you embark on an epic journey to answer humanity’s greatest mystery. In the year 2330, humanity has ventured beyond our solar system, settling new planets, and living as a spacefaring people. You will join Constellation—the last group of space explorers seeking rare artifacts throughout the galaxy—and navigate the vast expanse of space in Bethesda Game Studios’ biggest and most ambitious game. Features & details TELL YOUR STORY In Starfield the most important story is the one you tell with your character. Start your journey by customizing your appearance and deciding your Background and Traits. Will you be an experienced explorer, a charming diplomat, a stealthy cyber runner, or something else entirely? The choice is yours. Decide who you will be and what you will become. EXPLORE THE SETTLED SYSTEMS Venture through the stars and explore more than 1000 planets. Navigate bustling cities, explore dangerous bases, and traverse wild landscapes. Meet and recruit a memorable cast of characters, join in the adventures of various factions, and embark on quests across the Settled Systems. A new story or experience is always waiting to be discovered. CAPTAIN THE SHIP OF YOUR DREAMS Pilot and command the ship of your dreams. Personalize the look of your ship, modify critical systems including weapons and shields, and assign crew members to provide unique bonuses. In deep space you will engage in high-stakes dogfights, encounter random missions, dock at star stations, and even board and commandeer enemy ships to add to your collection. DISCOVER, COLLECT, BUILD Explore planets and discover the fauna, flora, and resources needed to craft everything from medicine and food to equipment and weapons. Build outposts and hire a crew to passively extract materials and establish cargo links to transfer resources between them. Invest these raw materials into research projects to unlock unique crafting recipes. LOCK AND LOAD Space can be a dangerous place. A refined combat system gives you the tools to deal with any situation. Whether you prefer long-range rifles, laser weapons, or demolitions, each weapon type can be modified to complement your playstyle. Zero G environments add a chaotic spectacle to combat, while boost packs give players freedom to maneuver like never before.
