Available quantity	100

Description

Sturdy Construction: The holder is built with durable materials to withstand the rigors of motorcycle riding, providing a secure grip on your device even on bumpy roads or at high speeds. Universal Compatibility: It’s designed to fit most smartphones, with adjustable arms that can accommodate various sizes and shapes of devices. 360-Degree Rotation: The holder offers flexible viewing angles, allowing you to adjust your phone to the perfect position for navigation, music control, or hands-free calling. Easy Installation: It comes with a clamp or bracket system that attaches to your motorcycle’s handlebars, ensuring quick and hassle-free installation without the need for tools. Secure Mounting: The holder features a locking mechanism to keep your phone in place, minimizing the risk of it slipping or falling off, even during sudden movements or vibrations. Weatherproof Design: Moxom MX-VS81 Built to withstand exposure to the elements, the holder is resistant to water, dust, and other environmental factors, ensuring your phone stays safe and dry during your rides. Versatile Use: Apart from motorcycles, the holder can also be mounted on bicycles, scooters, or any other vehicles with similar handlebar sizes, offering versatility for various outdoor activities. Model: MX-VS81
