Description

Amazing Stable Connection-Quick Access to Games□Real-time gaming audio with our 2.4GHz USB & Type-C ultra-low latency wireless connection. With less than 30ms delay, you can enjoy smoother operation and stay ahead of the competition, so you can enjoy an immersive lag-free wireless gaming experience. Game Communication-Better Bass and Accuracy□The 50mm driver plus 2.4G lossless wireless transports you to the gaming world, letting you hear every critical step, reload, or vocal in Fortnite, Call of Duty, The Legend of Zelda and RPG, so you will never miss a step or shot during game playing. You will completely in awe with the range, precision, and audio quality your ears were experiencing. Flexible and Convenient Design-Effortless in Game□Ideal intuitive button layout on the headphones for user. Multi-functional button controls let you instantly crank or lower volume and mute, quickly answer phone calls, cut songs, turn on lights, etc. Ease of use and customization, are all done with passion and priority for the user. Less plug, More Play-Dual Input From 2.4GHz & Bluetooth□ Wireless gaming headset adopts high performance dual mode design. With a 2.4GHz USB dongle, which is super sturdy, lag□30ms, perfectly made for gamers. Bluetooth mode only work for phone, laptop and switch. And 3.5mm wired mode (Only support music and call). Wide Compatibility with Gaming Devices□Setup the perfect entertainment system by plugging in 2.4G USB. The convenience of dual USB work seamlessly with your PS5,PS4, PC, Mac, Laptop, Switch and saves you from swapping cables. Bluetooth function can't directly support with Mac, Ps5, Ps4,Pc, additional USB Bluetooth Adapter is required (not included). Recommend to use the 2.4G mode, it easy and amazing connect. The 2 in 1 USB transmitter needs to be combined to connect for Ps/Ps2/Ps5/Ps4/PC/Laptop/Mac, can't be used separately.
