Product	Attack Shark CM02 eSport Gaming Mouse Pad - Black/Red with Contour Line
SKU	gs-48039406272734
Brand	Attack Shark
Category	Peripherals
Minimum order quantity	1
Unit	—
Unit price	$12.00
Available quantity	100

Description

Luxurious Light Coarse Fabric Surface: Crafted with a lightweight yet durable coarse cloth, it delivers a subtle, tactile "fine sandy texture" under your palm. Designed as a "control pad," it offers a slightly resistant (non-slippery) glide that’s ideal for tasks requiring accuracy: photo editing, or competitive gaming (FPS, MOBAs). Water & Stain Resistance Coating: Say goodbye to cleaning hassles with our 5S coated surfaces. This advanced technology significantly improves water and stain resistance, easily resists splashes, and cleans quickly and easily with just a wipe. 4MM Elastic Core for Comfort: The 4MM thick rubber provides unparalleled support for smooth mouse movement, even on uneven surfaces. In addition, it provides effective cushioning for your wrist, reducing fatigue during long hours of play. Ultra-Fine Fiber Stitched Edges: Our mouse pads feature microfiber and precision narrow edges so your arms can slide unhindered. The durable, wear-resistant surface maintains its performance over time, preventing loss of control or accuracy over time. Thick Rubber Base for Stability: The thickened rubber base with dense anti-slip texture provides excellent friction to ensure your mouse pad stays securely in place. High-precision and uninterrupted gaming experience is achieved even during intense gaming sessions with intense arm movements.
