Description

Ultra-Fast Razer Optical SwitchesKeystrokes are activated using light-based technology, enabling faster response times compared to traditional mechanical switches. Greater consistency and reduced debounce delay are ensured for competitive play. Compact 60% Form FactorDesk space is maximized by removing the function row, navigation cluster, and numpad, while full functionality is preserved through secondary shortcuts and hotkeys. Double shot PBT Keycaps with Side-Printed FunctionsLong-term durability is enhanced through thick PBT construction, while side-printed legends allow easy access to secondary commands without cluttering the main layout. Onboard Memory and Lighting PresetsUp to five profiles are stored directly on the keyboard, enabling settings and lighting effects to be accessed without additional software. Detachable USB Type-C CableA secure latch design keeps the cable firmly connected, while quick removal makes transport and setup effortless. Aluminum ConstructionA solid aluminum casing provides strength and stability, ensuring resistance against long-term intensive use. Razer Chroma RGB IntegrationDynamic lighting effects are synchronized with over 150 supported games, enhancing immersion and visual feedback.
