Product specification sheet

Product	MOXOM 2 Meter Power Strip | 7 USB + 1 PD 20W, 2500W Max Outlets, 12-in-1 Multi-Function Power Hub
SKU	gs-47938199814366
Brand	Moxom
Category	Accessories
Minimum order quantity	1
Unit	—
Unit price	$20.00
Available quantity	100

Description

The Moxom MX-ST17 EU Power Strip is a versatile and powerful 12-in-1 charging solution designed to meet the needs of modern homes and offices. Featuring 7 USB ports and 1 PD outlet, this power strip provides ample connectivity for all your devices while supporting up to 2500W of total power output. With Smart IC technology, each USB port intelligently delivers the optimal current, ensuring safe and efficient charging up to 5V/2.4A per port. Built with safety in mind, the MX-ST17 includes multi-protection features such as overload protection and an automatic power cut-off to safeguard your devices from voltage surges. The wide compatibility design accommodates various electrical adapters and oversized plugs, making it a versatile addition to any setup. The one-key total control feature allows easy power management, turning the entire strip on or off with a single press. Key Features: 7 USB Ports + 1 PD 20W Outlet: Charge multiple devices simultaneously with up to 32W of total output, providing fast charging for your USB devices. Smart IC Technology: Auto-detects and delivers the optimal current to each device, with up to 5V/2.4A per USB port for safe and efficient charging. Wide Compatibility: Designed to accommodate electrical adapters and oversized plugs, perfect for various setups. Multi-Safety Protection: Automatically cuts power during voltage surges to protect connected devices from potential damage. High Power Capacity: Supports up to 2500W, ideal for a wide range of electronics, from small devices to larger appliances. One-Key Total Control: Easily control the entire power strip with a single button, simplifying power management. Durable Construction: Undergoes rigorous reliability testing to ensure long-lasting durability and performance. Specifications: Model: MX-ST17 Input: AC100-250V, 50-60Hz, 10A (MAX) 2500W Output: PD: 5V-3A, 9V-2.22A, 12V-1.67A (20W) QC: 3.6-6V-3A, 6.2-9V-2A, 9.2-12V-1.5A (18W) USB: 5V 2.4A (MAX) Total Output: 32W The Moxom MX-ST17 EU Power Strip is a high-performance, reliable solution for all your power needs, offering advanced safety features and a user-friendly design for optimal power management. This power strip ensures that your devices are charged efficiently and safely, making it an essential addition to any home or office.
