## Description

REALISTIC FLIGHT SIMULATOR CONTROL - Experience true hands-on flying with a precision HOTAS joystick and throttle system designed for immersive flight simulator gameplay. Ideal for flight simulation. ERGONOMIC FLIGHT STICK DESIGN - Comfortable flight stick joystick with adjustable resistance, responsive trigger, hat switch, and multiple programmable buttons for smooth aircraft control during takeoff, landing, and combat maneuvers. DETACHABLE THROTTLE FOR VERSATILE SETUPS - Modular design allows the flight stick and throttle to be used together on a desk or separately on your lap, ideal for cockpit, desk, or casual flight simulator setups. PLUG & PLAY FOR PC & CONSOLE - Easy USB connection delivers instant compatibility with Windows PC and Xbox Series X|S. This flight simulator controller requires no complex setup and works seamlessly with most popular flight sim software. ADAPTED FOR ALL FLIGHT SIMULATION TYPES – Adjustable joystick resistance and ergonomically placed buttons deliver precise control across all aircraft categories. Ideal for commercial aviation, combat jets, and helicopters, making it perfect for both beginner pilots and seasoned flight sim enthusiasts. EXPANDABLE FLIGHT SIMULATOR ECOSYSTEM - Compatible with Thrustmaster TFRP rudder pedals (sold separately), featuring the S.M.A.R.T. sliding rail system for smooth, precise steering and enhanced flight simulator control.
