## Description

The Moxom 40000mAh Power Bank model MX-PB157 is a high-capacity, heavy-duty portable charger featuring 22.5W SCP and 20W PD fast charging. It includes built-in cables (typically USB-C/Lightning), a smart LCD battery display, and multiple ports, designed to charge multiple devices simultaneously.  Key Features and Specifications:Capacity: 40000mAh Lithium Polymer battery, suitable for multiple charges of smartphones and tablets.Fast Charging Protocols: Supports 22.5W Super Charge Protocol (SCP) for Huawei and 20W Power Delivery (PD) for iPhones/Type-C devices.Built-in Cables: Frequently features integrated Type-C and Lightning cables for cable-free charging.Ports: Multiple inputs (Micro/Type-C) and outputs (USB-A/Type-C) allow for charging up to 4+ devices at once.Display: Smart LCD digital display shows real-time remaining battery percentage.Safety: Includes protections against short circuits, overcurrent, overcharging, and under-voltage.Design: Often features a built-in lanyard for portability.  This power bank is ideal for long trips, camping, or heavy users needing multiple days of power.
