Description

The MOXOM MX-HC176 is a high-speed travel charger kit designed for fast and efficient charging. It features a sleek, black "cyberpunk" style aesthetic with gold accents and comes with an EU-style power plug. Key Specifications Model: MX-HC176 Total Power Output: Supports up to 20W Power Delivery (PD) and 18W Quick Charge (QC). Plug Type: EU (Two-round pin). Fast Charging Protocols: * PD 20W: Optimized for newer iPhones and USB-C devices. QC 18W: Optimized for Android devices supporting Qualcomm Quick Charge. Features & Safety Intelligent Protection: The packaging indicates built-in smart chip technology to protect against overheating, overcharging, and short-circuiting. High-Quality Build: Features gold-plated accents and a high-quality copper core within the cable for stable current transmission. Complete Kit: The package appears to include the wall adapter and a matching charging cable (likely USB-C based on the PD branding). Universal Compatibility: Designed to work with a wide range of smartphones, tablets, and other USB-powered gadgets. Design The unit has a modern, industrial look with "PD 20W" prominently printed on the front. The packaging emphasizes its "100% Original Quality" and high-performance capabilities for users on the go.
