Description

Transform your home entertainment with the JBL Cinema SB580 soundbar system. Designed to bring cinematic sound into any living space, this powerful 3.1-channel system delivers an impressive 440 watts of JBL’s signature audio, providing immersive sound that enhances movies, music, and TV shows. With a dedicated center channel for crystal-clear dialogue and a wireless subwoofer for deep bass, this system elevates your listening experience to new heights. The sleek, modern design of the JBL Cinema SB580 ensures it fits seamlessly into your home setup while delivering room-filling audio performance. Featuring Virtual Dolby Atmos® technology, it creates a sense of sound coming from all around you, bringing greater depth and realism to your entertainment. With multiple connectivity options including HDMI, optical input, and Bluetooth streaming, this soundbar offers flexibility and convenience for all your devices. Key Features: Powerful Sound Output: Delivers up to 440 W of total system power with 240 W from the soundbar and 200 W from the wireless subwoofer for rich, dynamic audio. 3.1-Channel Configuration: Includes a dedicated center channel for enhanced dialogue clarity and a wide soundstage. Virtual Dolby Atmos®: Provides a more immersive audio experience with simulated height and surround effects. Wireless Subwoofer: 6.5″ subwoofer delivers deep, powerful bass without cable clutter. Flexible Connectivity: HDMI (including eARC), optical input, USB, and Bluetooth support make connecting TVs, gaming consoles, and mobile devices easy.
