## Description

Play like a Pro with 8BitDo's most advanced controller to date! An evolution of the SN30 Pro+ in every way at a fraction of the price of competitor Pro controllers and compatible with the Raspberry Pi! The Pro 2 features two Pro-level back buttons. These buttons give you more control so you don't have to take your thumbs off the thumbsticks. With 8BitDo Ultimate Software you can assign any button function and macros, too. More ways to play. Custom Profile Switching. Enhanced grip. 4-way Mode Switching button. The Pro 2 gives you more ways to play. The custom profile switch button holds 3 custom profiles that can be switched on the fly. With an enhanced grip, Pro 2 allows you to hold the controller with even less effort. The new 4-way Mode Switch button allows you to instantly switch between Switch, macOS, D-input and X-input so you can pair to any device as easily as possible. 8BitDo Ultimate Software now on PC, Android and iOS Ultimate Software gives you elite control over every piece of your controller - now on Android and iOS. Customize button mapping, adjust stick & trigger sensitivity, vibration control and create macros with any button combination. Create controller profiles and switch between them at any time with the custom profile switch.[1] Mapping: Assign the buttons with the functionality to your liking Sticks: Customize each stick for a higher precision control Triggers: Adjust the ranges of your triggers to act faster Vibration: Modify the vibration intensity for a better comfort during gameplay Macros: Assign a long sequence and action to one single button A Modern controller that respects the classics The Pro 2 controller isn't any old Bluetooth® game controller - it was designed with respect for the classics. We paid extra attention to the most critical characteristics like the D-PAD, to make sure it feels exactly like you remember it. Play any game, anywhere Switch. Windows. macOS. Android. 8Bitdo controllers are designed to be as versatile as possible with each of your modern devices. Now with a 4-way mode switch, you can instantly pair your controller via Bluetooth®. You can even use Pro 2 as a wired USB controller with the included USB cable. Compatibility Raspberry Pi: 4B, 3B+, 3B, 2B, Zero (Bluetooth® 2.0 and above) Switch: 1.0.0 and above (Switch), 9.0.0 and above (Lite) Windows: Windows 7 and above (Bluetooth®4.0 macOS: 10.10 and above Android: 4.0 and above Steam: Windows 7 and above, macOS 10.9 and above Package Contents 8BitDo Pro 2 Bluetooth gamepad USB cable Instruction manual Tech Specs Special Features 2 Pro back paddle buttons Custom Profile switch button, 3 profiles, switch on the fly Mode switch button (Switch, macOS, D-input, X-input) Ultimate Software on PC and mobile (Android/iOS) Enhanced grip Modifiable vibration 6 axis motion sensor Connectivity Wireless Bluetooth®4.0 USB-C Controller Mode Switch mode X-input Mac mode D-input Battery Type / Battery Life 1000mAh Li-on battery, rechargeable 20 play hours with 4 hour charging time Notes * Additional system support requires downloading and installing firmware available at support.8bitdo.com* Switch compatibility does not support HD rumble or amiibo scanning[1] The Pro 2 features regular rumble vibration, not HD Rumble.
