Description

Unparalleled Comfort COUGAR Armor One brings you the comfort you need to thoroughly enjoy long gaming sessions. Fully adjustable and made of first quality materials, this gaming chair also features the unique COUGAR design that has become a sign of the passion for gaming. Body-embracing High Back Design Endowed with an ergonomic design created especially for gamers, COUGAR Armor One has been created to comfortably support your body. Its high back structure will properly support your lower back, minimizing tension on your back. Breathable PVC Leather COUGAR has not skimped on quality materials when it comes to Armor ONE’s surface. The breathable PVC leather is pleasant to the touch and will stay fresh while you keep gaming. Head and Lumbar Pillow To provide additional support and comfort, Armor One includes two comfortable pillows for your head and lumbar region. Focus on the game! Adjustable Design Armor One will adapt itself to your needs in every moment through several adjustment options: Piston Lift Height Adjustment Easily adjust Armor ONE’s height with the high-quality piston lift. Continuous Reclining With Armor One you are not restricted to fixed steps when reclining your chair. Instead of being limited to a few options, you can find the exact point that maximizes your comfort and stay there. 180º Reclining Armor One allows you to recline up to 180º. Stay straight while working and lie down for resting when you’re over. Adjustable Tilting Resistance Armor One’s tilting function allows you, by turning a knob located under the chair, to adjust its behaviour, controlling the level of resistance when you tilt it. 2D Adjustable armrest Ready to suit your needs, Armor ONE’s armrests allow you to adjust them in the following ways: Height Adjustment Moving the armrest up or down will help you to findthe most suitable position to enjoy games. Left/Right Adjustment Suitable for all body sizes and positions. Quality and Safety Armor One is as solid as its name indicates, and it has been created with the best components to guarantee not only that it will last for long but also that you will be able to make use of all its amazing features safely. Full Steel Frame Armor One’s bones are made up of steel, not only guaranteeing long-term durability but also providing strong support for your body. Embroidered Logo Armor bears the mark of true gamers: While others print logos on the chair, COUGAR has embroidered what has become a symbol of passion for gaming so that it won’t wear out for many years. Ultimate Quality: Class 4 Gas Lift Cylinder The heart of any gaming chair is its gas lift cylinder. We have not skimped in quality for this vital component and decided to use a Class 4 Gas Lift Cylinder to guarantee unparalleled safety and reliability. With smooth operation and incredible resistance, it is the best guarantee of ARMOR S ROYAL’s quality.
