Description

HyperX Jet Black Gaming Chair PRIME PU LEATHER UPHOLSTERY – High-end material used on all areas of the JET BLACK gaming chair are upholstered and finely stitched together, sure to provide a great look over time and fresh out the box. DIAMOND STICHING DETAIL – Our handmade stitching detail in the cushioning of the seat and supportive backrest of the chair is combined with a sleek carbon fabric material for both a luxurious look and feel. MULTIPLE FUNCTIONAL TILT MECHANISM – This is the center of the chair, the command center, the control unit. The Multi-functional tilt mechanism allows you to lock the chair in tilt in any position. It allows a smooth tilt when rocking and a greater depth of tilt. EXTENDED CLASS 4 GASLIFT – JET BLACK video game chair features an extended class 4 Gaslift allowing users to sit at a seat height of 60cm. With a thickness of metal improvement providing support for 330 Lbs MEMORY FOAM VELOUR PILLOWS – Included with the HyperX JET BLACK pc chair you get extravagant velour covered Memory foam neck and lumbar support pillows. Provides a great feel on skin and is breathable for longer sessions. Easy to place and remove.
