Description

Best Addition to the Room: ReyeeInc gaming neon sign makes any room feel like an arcade room with the lights and multiple colors, super cute for kids gamer bedroom, well enhance gaming themed room or video room, perfect addition to any gaming area or kid’s bedroom. Bright and Cool: This gaming room decor is very cute, the colors are vibrant and bright, creating a mesmerizing glow that enhances the gaming atmosphere and makes it a special space for gaming enthusiasts. The sign not only enhances the visual appeal of the room but also adds an element of personal style and taste. Perfect Dimmable Design: This game room accessories and decor adds a dimmer switch, offering 6 levels of brightness to set. Short press "+" and "-" buttons or long press for stepless brightening and dimming to meet your different lighting needs, it looks great in a dim setting and also acts as a night light when kid goes to sleep. Safe and Low Energy Consumption: The multi-colored gamer decor neon light is well made with the silicone LED neon tubing channel set into a clear acrylic Lucite backing. It is very sturdy, well-constructed, and made to last, ensuring that it will continue to shine brightly for a long time. The power source is a USB cord, no batteries needed, it only requires a usb 5 volt power adapter (NOT included). Easy to Install and Use: It comes with all the necessary components, premade holes in the backing for easy wall mounting, package comes with hanging chain and screws, offers two ways to install as you prefer. The cord is nearly 6.5FT long, has a simple off/on switch with settings for brightness right on it, so you don’t need to unplug it to turn it off, so easy to use.
