Description

The HyperX ChargePlay Quad simultaneously charges up to four Joy-Con controllers so you’ll always be ready for a gaming night, or to hot-swap controllers and keep playing. The ChargePlay Quad indicates battery status right on the base, so you can check which controllers are ready to go. The quick, convenient easy-glide docking keeps your Joy-Con controllers securely attached to the stable base. Highlights: Simultaneously charges four Joy-Con controllers Battery indicators display charging status Convenient and secure docking with stable design Charge up to four Joy-Con controllers at once HyperX ChargePlay Quad conveniently connects directly to the Nintendo Switch dock via USB to keep your Joy-Con controllers fully charged and ready for action. Battery indicators to quickly check charge status Individual LED indicators breathe when charging and stay lit when the controllers are fully charged. Secure and easy docking Controllers easily glide into place thanks to the ChargePlay Quad’s secure docking design. Stable design with weighted base The ChargePlay Quad features a weighted base and rubber grip pads on the bottom for stability.
