Product	Meetion GW38 Wireless Tri-Mode Mouse with Magnetic Charging Dock (Black)
SKU	gs-47600147628254
Brand	Meetion
Category	Accessories
Minimum order quantity	1
Unit	—
Unit price	$25.00
Available quantity	100

Description

Up to 8000 DPI: Six adjustable DPI levelsPAW3104 Sensor: High-performance sensor1000Hz Polling Rate: Ultra-low 1ms latencyGaming-Focused Switches: 20 million clicksMagnetic Charging Dock: Convenient chargingTri-Mode Connectivity: 2.4GHz/Bluetooth/WiredSuitable for Medium to Large Hands: Comfortable and easy to grip Perfect Fusion of Superior Performance and Exquisite Design The GW38 mouse seamlessly integrates 2.4G wireless, Bluetooth, and wired connectivity to meet diverse device-switching needs. Its ergonomic lightweight design combined with PTFE Teflon feet ensures comfortable and smooth usage for extended periods. Featuring full-color RGB backlighting and multiple DPI settings (200-8000 DPI), it effortlessly caters to both personalized aesthetics and precise control. Equipped with the advanced PAW3104 sensor, an adjustable polling rate of 125-1000Hz, and a 1ms response time, the GW38 delivers unparalleled precision and ultra-fast responsiveness. The magnetic charging design paired with a 600mAh high-capacity battery ensures long-lasting power and effortless charging. High-quality switches support up to 20 million clicks for exceptional durability, while the convenient receiver storage compartment and anti-slip protective pads highlight meticulous, user-friendly details. Compatible with Windows 10/11 and offering comprehensive multi-platform driver support, the GW38 mouse is the ideal choice for office work, gaming, and everyday use, providing an unmatched operational experience. Fully Upgraded GW38, Experience Unmatched Control The GW38 mouse features 2.4G wireless, Bluetooth, and wired connections for easy multi-device use. RGB lighting and adjustable DPI (200-8000) offer both style and precision. Powered by a PAW3104 sensor with a 1ms response time, it delivers fast and accurate tracking. The 600mAh battery and magnetic charging provide reliable, hassle-free power. Durable switches support up to 20 million clicks, while practical touches like receiver storage and anti-slip stickers enhance usability. Seamless Switching with Triple Connectivity The GW38 mouse offers 2.4G wireless, Bluetooth, and wired connectivity modes, allowing you to effortlessly switch between different devices and usage scenarios without the hassle of re-pairing. Whether you're working, gaming, or on the go, the GW38 ensures a stable connection for seamless operation. Exceptional Durability for Reliable Clicks The GW38 mouse features high-quality switches for the left and right buttons, supporting up to 20 million clicks to ensure each click is precise and reliable. Whether it's frequent office tasks or intense gaming clicks, the GW38 delivers lasting durability and exceptional performance. Superior Sensor for Precision Control Equipped with the original PAW3104 sensor, the GW38 mouse offers adjustable resolutions from 200-8000 DPI for ultimate precision tracking. Whether you're engaged in detailed design work or high-speed gaming actions, the GW38 ensures every movement is smooth and accurate. Ultra-adjustable DPI for Tailored Precision The GW38 mouse features multiple DPI settings, adjustable from 200 to 8000 DPI to cater to various usage needs. Whether you require ultra-fine cursor control for detailed design tasks or rapid response speeds for fast-paced gaming, the GW38 effortlessly adapts to your requirements. With an easy-access DPI switch button, users can quickly adjust the DPI based on the current scenario, ensuring every action is executed with pinpoint accuracy. Ultra-fast Response with High Polling Rate With an adjustable polling rate of 125-1000Hz and a 1ms response time, the GW38 mouse ensures instant command execution. Whether it's rapid movements or precise operations, experience smooth and lag-free performance with high efficiency. Ergonomic Lightweight Design for Lasting Comfort Designed with ergonomics in mind, the GW38 mouse is lightweight at just 82g and measures 125*63.5*40.5mm, fitting perfectly in your hand for extended comfortable use. Whether you're working long hours or engaging in intense gaming sessions, the GW38 minimizes hand fatigue and enhances operational efficiency. Stunning RGB Backlighting for Personalized Expression Featuring a full-color RGB backlighting system, the GW38 supports various lighting effects and color customization, allowing your mouse to shine with unique personality in any setting. Whether it's a vibrant gaming night or a sleek office desk, the RGB backlighting adds a visual delight to your setup. Magnetic Charging for Effortless Power The GW38 mouse features an advanced magnetic charging design, allowing you to connect effortlessly with a simple snap—no more fumbling for ports or worrying about tangled cables. Magnetic charging not only enhances convenience but also protects the charging interface, extending the lifespan of your mouse. Equipped with a built-in 600mAh high-capacity battery, a quick 2-hour charge provides up to 30 hours of use with the backlight on and extends to 60 hours with the backlight off,

ensuring efficient all-day performance. Flexible Driver Support for Easy Setup Compatible with Windows 10/11 and above, the GW38 mouse offers comprehensive driver support with a wealth of customization options. Easily adjust settings to create a personalized operation experience, catering to the unique needs of different users. Striving for Excellence, Details Matter Most The GW38 mouse is meticulously crafted with excellence in every detail. It features PTFE Teflon feet that offer low friction and high wear resistance, ensuring smoother and more durable mouse movements. The 1.8-meter braided data cable is lightweight and low-resistance, reducing drag and enhancing the overall operational experience.
