## Description

2.4G/Bluetooth/Wired PAW3220 Sensor Up to 8000DPI 1000Hz Polling Rate 20 Million Times Micro Switch RGB Lighting Effects 700mAh Long Battery Life Right-Handed Ergonomics Meetion Exclusive Driver  Your Gaming Potential with the GW32 Lightweight Mouse Introducing the Meetion GW32, an ergonomic gaming mouse tailored for right-handed gamers. It features the advanced PAW3220 sensor with up to 8000 DPI and a 1000Hz polling rate, ensuring precise tracking and ultra-low latency for impeccable performance. The GW32 boasts a durable 20 million click lifespan and customizable RGB lighting, blending style with functionality. Its 700mAh battery offers remarkable longevity, providing up to 35 hours of use with lights on and an impressive 115 hours with lights off. Designed for comfort and control, the mouse includes dual scroll wheels and an ergonomic shape, making it perfect for extended gaming sessions. Multiple connectivity options—2.4G, BT1, BT2, and USB—provide versatile compatibility with various devices. Weighing just 98g (excluding cable), the GW32 is lightweight and easy to maneuver. Complete with Meetion's exclusive driver for full customization and compatible with Windows 10/11, the GW32 is the ultimate gaming companion, combining precision, style, and flexibility. Elevate Your Game with the GW33 The GW33 Lightweight Gaming Mouse offers precision and speed with the PMW3325 sensor and 1000Hz polling rate. Switch effortlessly between 2.4G, Bluetooth, and Wired modes. Customize your play with 10000 DPI settings and RGB lighting. Enjoy long sessions with a 650mAh battery. The GW33 – cutting-edge tech meets ergonomic design. Triple-Mode Connectivity: 2.4G Wireless, Dual Bluetooth, and Wired Mode Enjoy seamless flexibility with the GW33's three connection modes – ultra-fast 2.4 GHz wireless for lag-free gaming, Bluetooth pairing with up to two devices for easy switching, or a USB wired mode that allows you to charge and play simultaneously. Never be tethered by limits again. Gaming Micro Switch: Precision and Durability Our gaming micro switches are engineered for exceptional precision and durability. Designed to deliver faster and more stable click feedback, they ensure every action is registered accurately. Enjoy a longer lifespan and clear tactile feedback, making your gaming experience truly immersive. Unmatched Precision with PAW3220 Sensor Featuring the high-performance PAW3220 sensor, our mouse offers unparalleled precision and control. Whether you're working on a simple Word document or engaged in intense FPS gaming, this sensor adapts to deliver fine control and smooth tracking in every scenario. Dazzling RGB Lighting: 16.8 Million Colors, 11 Lighting Modes Transform your gaming experience with 16.8 million colors and 11 lighting modes. Our customizable RGB backlighting creates an immersive atmosphere, enhancing your gaming setup with vibrant, dynamic lighting effects that match your style and mood. Right-Handed Ergonomic Comfort Designed for ultimate comfort, our ergonomic mouse perfectly contours to support your palm and fingers. The right-handed design ensures a comfortable grip, reducing fatigue during extended use, so you can game or work for hours without discomfort. High DPI and Polling Rate: 8000DPI, 1000Hz Polling Rate Achieve ultimate precision with an impressive 8000 DPI and a 1000Hz polling rate. Our advanced optical engine ensures smooth, accurate movements, eliminating frame drops and stuttering. Enjoy seamless, lag-free performance for both gaming and professional use. Long-lasting Battery:Play Without Limits Say goodbye to battery anxiety with our 700mAh battery and smart power-saving technology. Designed for extended use, our mouse ensures you stay powered up longer, whether you're gaming or working. Enjoy uninterrupted performance and peace of mind. Enhance Efficiency with Customizable Buttons Boost your gaming efficiency with programmable buttons that cater to your diverse needs. Customize each button to suit your preferences and streamline your operations, making every action more efficient and giving you a competitive edge. Effortless Movement with 100% PTFE Feet Experience smooth, effortless movement with high-quality PTFE feet. Designed to reduce friction, these feet ensure your mouse glides seamlessly across any surface, providing precise control and enhancing your overall gaming and work experience.
