Available quantity	100

Description

IMPROVES AIM: Our Precision Rings are made from a unique material that adds resistance to your stock thumbsticks so you can take more accurate shots, even at max in-game sensitivities INCREASE CONTROL: Precision Rings compact to cushion your stick, adding resistance and preventing you from over-shooting your target. Increase your in-game sensitivity to turn on your opponents and snap to targets faster, helping you win more gun battles MIXED RESISTANCE LEVEL: Includes six (6) universal rings in soft, medium and hard strengths HIGH QUALITY HIGH QUALITY MATERIAL: Flexible, moisture wicking material is resistant to hand and finger oils, dampens sound and quickly recovers its original shape so you can use it over and over again COMPATIBLE WITH PERFORMANCE THUMBSTICKS: Similar to weighted sports gear, try adding them to your setup for training to build muscle in your thumbs and fine tune your aim
