Unit	—
Unit price	$125.00
Available quantity	100

Description

The HyperX Cloud III Wireless is a new chapter in the legend of the Cloud II. This wireless evolution builds upon the soul of the Cloud II Wireless while incorporating new tech and a bold new look. Comfort is king and the Cloud III’s fit for royalty, delivering luxurious comfort for all-day gaming or marathon streams. You’ll get a huge amount of battery life, up to 120 hours, for uninterrupted gaming joy. It also features retuned 53mm angled drivers and a lifetime activation of DTS Headphone:X Spatial Audio for premium quality audio and sound localization. Fast, reliable 2.4GHz connectivity allows you to get rid of the cables, but not important audio. The upgraded 10mm microphone will enable crystal-clear communication when you’re calling out orders to your squad, chatting with friends, or taking calls. Simple audio controls on the headset earcup allow you to have quick, direct access to mute your mic or adjust audio volume. Compatible with PC, PS5, and Nintendo Switch, it’s the ideal wireless headset for comfortable gaming audio however you play. Up to 120 hours of Battery Life: Put on the Cloud III Wireless and you might not have to charge again for weeks. Enjoy up to 120 hours of battery life for gaming, watching anime, or chatting on a single charge. Comfort is King: Comfort’s in the Cloud III’s DNA. HyperX signature memory foam in the headband and ear cushions wrapped in soft, premium leatherette make for a plush, comfortable fit all around. Audio Tuned for Your Entertainment: Angled 53mm drivers have been tuned by HyperX audio engineers to provide an optimized listening experience that accents the dynamic sounds of gaming. Upgraded, Crystal-Clear Detachable Microphone: Captures high-quality audio for clear voice chat and calls. The noise-cancelling mic has a built-in mesh filter to further reduce disruptive sounds. It also features an LED mic mute indicator. Durability, for the Toughest of Battles: The headset is flexible and features an aluminum frame so it’s resilient against travel, accidents, mishaps, and your ‘level-headed’ reactions to losses and defeat screens.
