Description

An all-star cast of heroes has gathered to test their mettle in Crystal Crisis, a cute and chaotic new color-matching combat game for Nintendo Switch. Crystal Crisis is presented like a one-on-one fighting game, but instead of pressing buttons to kick and punch, players arrange falling gems into matching colors to clear them from the screen and inflict damage on their opponents. It’s the ultimate puzzle battle throwdown!Optional “Colorblind Mode” makes gems easier to distinguish for players with color blindness.Pre-order your physical copy today to get free bonus goodies: a full-color instruction booklet and a transforming Crystal Cluster for fidgety fingers!"
