Description

Computer speakers 2.0 Havit SK213 Bluetooth RGB Delightful design, high-quality stereo sound, and dynamic RGB lighting - the Havit SK213 computer speakers are the perfect combination of functionality and style for any lover of good sound and modern design. Offering solid output power, a wide frequency range, and easy connectivity, these speakers are a great choice for both work and entertainment. Check out what else they have to offer! Dynamic RGB lighting The dynamic RGB lighting on the Havit SK213 speakers adds energy to any room. The ability to customize the colors and lighting effects allows you to create a unique atmosphere that blends perfectly with music, movies or games. It's not only a decorative function, but also a way to emphasize the user's individual style. Stylish design The stylish, modern design of the Havit SK213 speakers sets them apart from other products. Their compact size (98 x 112 x 184mm) allows them to be easily placed on a desk or elsewhere. The black color and the combination of plastic and iron mesh create an elegant and durable design that blends in with any interior. Stereo sound quality The speakers offer high-quality stereo sound that brings music, movies and games to life. With two 2.5inch drives each and 3W x 2 output power, the Havit SK213 delivers clear and balanced sound. The wide frequency range (60Hz-20kHz) ensures that every tone is clear and full of detail. Ease of connection The Havit SK213 speakers are equipped with universal USB and 3.5mm, allowing easy connection to most devices. In addition, Bluetooth functionality expands connectivity, allowing you to wirelessly stream music from phones, tablets or laptops. High signal-to-noise ratio A signal-to-noise ratio of >70dB ensures that interference is minimized, which is crucial for sound clarity. Combined with a low impedance of 4Ω, the speakers provide stable and efficient sound transmission for a better listening experience.
