Description

The HAVIT GK51 is a high-quality recording microphone that is perfect for live performances. It features RGB lighting, adding a visual element to your recordings. With its superior sound quality and built-in lighting effect, this microphone is a must-have for any serious recording artist. About this item □Cardioid pickup pattern □The sound pickup area is relatively concentrated, focusing more on your voice, reducing background noise, and perfectly reproducing your voice. □High resolution□With a 48kHz/16-bit high sampling rate, our recording ensures clear, smooth, and vivid sound quality. This feature provides an excellent professional recording experience, capturing every detail with precision and clarity. □Dynamic RGB lighting effect□Multiple colors that change automatically, paired with a uniquely personalized laser-carved design, make your game or live broadcast more eye-catching. □Volume adjustment button□Adjust volume with the gain control knob for optimal recording. Mute audio with a single click to prevent audio mishaps. □Zero delay monitoring□The recording microphone features a 3.5mm headphone jack and Type-C port, supporting real-time monitoring without delay. Ideal for video recording, podcasting, gaming, Skype calls, singing, chatting, and live streaming. □Simple to Use□Plug-and-play, requiring no additional drivers for setup.
