## Description

Features & details □Minimal Assembly Required□The RACGTING racing simulator cockpit has an almost out-of-the-box design, which means that you only need to unpack the box, adjust the cockpit to your desired angle, and start playing. The whole process takes only 10 minutes! □Compatible with Most Racing Wheels□The RACGTING racing simulator cockpit is compatible with most racing wheels, including Logitech models like G29, G920, G923, G27, and G25, as well as Thrustmaster models like T248, T248X, T300RS GT, T150, T80, TX, T-GT, TS-PC, and TS-XW. It can be used with PS5, PS4, Xbox One, and PC platforms. (Note: Wheel, shifter, and pedals are NOT included.) □Easy to Store□Thanks to its unique design, you can easily stow away the RACGTING racing simulator cockpit without taking up too much space in your home. □Comfortable Cockpit□The RACGTING racing simulator cockpit features carbon steel brackets and chairs made of tough and soft suede that are just right. Due to its reasonable structural setup, the RACGTING racing simulator cockpit is very stable and can hold up to 110KG. □Customizable Adjustments□With the RACGTING racing simulator cockpit, you can adjust the length of the footrests, the angle of the steering wheel tray, the left and right positions of the shifters, and even the height and angle of the chair. Completely ergonomically designed, you can create your own cockpit to your heart's content! □Customer Satisfaction Guaranteed□Should you have any inquiries regarding our product, don't hesitate to contact us. We are committed to providing prompt assistance to address your concerns.
